

Ramiro Urteaga

Full Stack Developer · React · Next.js · Node.js · TypeScript

Pilar, Buenos Aires, Argentina · urteagaramiro33@gmail.com · LinkedIn · GitHub · Portfolio · WhatsApp

PROFESSIONAL SUMMARY

Full Stack Developer specializing in React, Next.js, TypeScript, and Node.js, with experience developing modern web applications and business solutions. Skilled in both frontend and backend development, using Express, REST APIs, and databases such as MySQL and MongoDB, along with experience working with Agile methodologies such as Scrum and functional documentation. Additionally, I have over 6 years of independent technical support experience, developing strong skills in analysis, troubleshooting, problem-solving, user and client communication, and requirements gathering. I specialize in translating business needs into implementable technical solutions, clearly documenting requirements, and working collaboratively to solve problems and deliver efficient solutions.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern · **SwaplyAr** (Argentine Fintech Startup) · Jan 2026 – Apr 2026

- Developed and maintained 10+ React/Next.js components for a payment platform, reducing page load time by 15% and improving Core Web Vitals (CLS: 0.8s).
- Collaborated with the product team on critical digital wallet and payment transaction features, following coding best practices and participating in GitHub code reviews.
- Actively participated in the Agile development lifecycle, including daily stand-ups, pull requests, and sprints, in a fast-growing startup environment focused on scalability and performance.
- Tech Stack:** React, Next.js, TypeScript, Tailwind CSS | REST APIs, payment webhooks

Graphic Designer & Community Manager · **E-Academy** (Online Academy / EdTech) · Nov 2024 – Jan 2025

- Designed graphic assets for digital campaigns for an online education platform, maintaining a consistent visual identity across 50+ assets.
- Managed the editorial calendar and social media content publishing for Instagram and LinkedIn, increasing engagement by 25% through a visual content strategy.
- Collaborated with the marketing team on customer acquisition and brand awareness initiatives for an online course platform.
- Tools:** Figma, Social Media Management, Content Strategy, Canva

Technical Support Specialist · **Freelance** · Dec 2018 – Present

- Diagnosed and repaired hardware and software issues for individual clients, including PCs, mobile devices, and computer components.
- Specialized in troubleshooting complex software issues, system optimization, and data recovery.
- Developed strong technical communication skills by explaining complex solutions clearly to non-technical users.
- 8 years of independent work experience, demonstrating reliability, critical thinking, problem-solving, and effective time management.

SELECTED PROJECTS

MediTraslado · **Patient Transportation Management System**

Next.js · React · TypeScript · NextAuth · Supabase · REST APIs

- Developed a web platform to manage and centralize the registration, planning, and tracking of patient transportation services, replacing manual processes based on Excel spreadsheets.
- Implemented role-based authentication and access control, with different permissions and features for administrators, receptionists, and drivers.
- Developed management features for facilities, drivers, patients, and transportation services, including statuses such as pending,

confirmed, and cancelled, centralizing information and improving operational coordination.

- Integrated Supabase for data management and persistence, leveraging its services to connect the application with the backend infrastructure.
- Designed user interfaces tailored to different user roles, prioritizing a simple experience for daily management and information retrieval.

Entre Amigos · Supplies E-commerce

React · Next.js · Node.js · Express · Mercado Pago API · MongoDB

- Developed the backend with Node.js and Express to manage products, orders, and payments, integrating Mercado Pago through webhooks and automatic transaction status updates.
- Integrated the Mercado Pago API for online payments, including webhook handling and transaction status management.

Full Check · Automotive E-commerce

React · Next.js · Node.js · Gemini · Tailwind CSS

- Implemented both the frontend using reusable components and the server-side logic with Next.js API Routes, maintaining a clear separation of responsibilities.
- Integrated a dynamic Gemini-powered chat system to improve user interaction and support conversion.

Automated Web Scraper · Python Tool

Python · Selenium · BeautifulSoup · Pillow

- Developed a tool that simulates human interaction to extract data from dynamic websites with bot protection, processing and structuring the resulting information.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS.

Backend & DB: Node.js, Express, APIs RESTful, MongoDB, MySQL.

Automation: Python (Selenium, BeautifulSoup, Pillow).

IA & Intelligent Tool: Claude, ChatGPT, Gemini, IA Generativa, Open Code, Kmiko, Kombai, Vercel AI SDK.

Tools: Git, GitHub, Figma, Vercel, VS Code, Visual Studio.

CERTIFICACIONES EDUCATION & CERTIFICATIONS

Technical Degree in Programming — Teclab Instituto Técnico Superior | Universidad Siglo 21 (2021–2025)

Full Stack Developer (MERN) — Universidad Tecnológica Nacional (UTN Buenos Aires) · Fundación Pescar / EducaciónIT (2023)

.NET Core Specialization — EducaciónIT (2024)

UX/UI Fundamentals — Google (2024)

Salesforce Developer — Guayerd (2023)

LANGUAGES

English — B2 (Upper-Intermediate)
